

Bridging the AI-Memory Gap: Exploring Salient Cues to Support Users' Source Monitoring when Writing with AI

Tim Zindulka, University of Bayreuth

Sven Goller, University of Bayreuth

Daniel Buschek, University of Bayreuth

Main theme(s): *design strategies for enhancing source memory when writing with AI, informed by theory from cognitive psychology*

Target domain(s): *writing, ideation*

Cognitive 'target(s)': *(source) memory, reflection, sensemaking*
